

# Right to care, **Wellbeing** and support

It's my right to receive special care

It's my right to live my life to the fullest! That means that if I am facing challenges because of a disability, others will be there to support me and help me live comfortably. It means that I'll get the help I need to stay healthy, protected and connected with the people around me.

(Art. 6(2), 18(3), 23, 24, 26 & 27 of the UN Convention on the Rights of the Child).
